ARMREST OPTIONS:

DUAL RELEASE LOCKING ARM

- Optional for Tilt or Recline systems
- Armrest can be configured to be parallel or perpendicular to the seat frame when fully reclined
- In the upright position armrest can be adjusted to the desired angle
- Can accommodate lower arm heights

HEIGHT AND ANGLE ADJUSTABLE CANTILEVER FLIP BACK ARMREST

- Designed for Tilt and Recline Systems
- Locks arm rest in down position for stable transfer/re-positioning surface
- Optional for Tilt or Recline systems
- Arm retains ability to flip back completely
- Independent Height Adjustment

HEIGHT AND ANGLE ADJUSTABLE CANTILEVER FLIP BACK RECLINE ARM WITH QUICK LOCK MECHANISM

- Flip back and removable for easier transfers
- Height adjustable in 2 sizes:
  - Standard: 9½" - 18½"
  - Pediatric: 7½" - 10"
- Adjustment range is 3"

RECLINING ADJUSTABLE HEIGHT ARMREST

- Latch Plate permits the attendant to release the armrest to be flipped back
- Armrest can be configured to be parallel or perpendicular to the seat frame when fully reclined
- In the upright position armrest can be adjusted to the desired angle

HIGH PIVOT MECHANICAL SHEAR RECLINE ADJUSTABLE HEIGHT

- Flip back and removable for easier transfers
- Height adjustment range 11" - 16"
- Can accommodate lower arm heights
POWER FLIP BACK DUAL POST ARM

> Durable, precision machined rear pivot for long term stability and tolerance
> Flip back and removable for easier transfers
> Height adjustable in 3 sizes:
  - Small: 9” - 12½”
  - Medium: 12½” - 15¾”
  - Large: 15¾” - 18½”
> Optional quick height adjustment lever available at nominal upcharge

POWER OR MANUAL FLIP DOWN TRANSFER ARM

> Specially created and scaled down for kids
> Durable, precision machined rear pivot for long term stability and tolerance
> Flip back and removable for easier transfers
> Height adjustable in 3 sizes:
  - Small: 4” - 7½”
  - Medium: 6½” - 8¾”
  - Large: 8¼” - 9”
>

OUTBACK ARM

> Single locking bolt or ratchet allows infinite adjustment of angle and rotation of armpad or arm trough
> Ability to capture complex positions of client’s arm/hand
> Universal 7/8” clamp which allows it to fit on any wheelchair armrest, be it, manual or power
> Low profile bracket easily interfaces with the Motion Concept’s gel armpad, Arm Trough or Multi-Position Flat Armpad

MULTI-AXIS UPPER EXTREMITY SUPPORT

> Arm is powered to flip back 90°
> Available on UltraLow CG tilt systems and elevate-only systems which utilize a dual post height adjustable armrest
> Height adjustment is not compromised with the power flip back module
> May be used with dual post height adjustable arms with quick height adjustment lever
> All arm pad options are still available
> Elbow blocks may be added
> Available left or right

ARM REST OPTIONS:

- DUAL POST ARMREST
- PEDIATRIC ARMREST
- ARM STORAGE COMPARTMENT
- CUP HOLDER/STORAGE ARMREST

> Retractable cup holder fits most standard cans or bottles
> Arm pad flips open to store items
> Comfortable padded armrest
> Available for left or right side
> Size: 4” wide x 14” long

> Sleek and modern automotive look
> Quad release and closure for clients with limited dexterity
> Made of sturdy, durable material
> Available on Motion Concepts dual post arms only
> No charge option with Ultra-Low systems

> Arm storage compartment
> Transform armrest to a storage compartment
> Flip back and removeable for easier transfers
> Height adjustable in 3 sizes:
  - Small: 9¾” - 12½”
  - Medium: 12½” - 15¾”
  - Large: 15¾” - 18½”
> Optional quick height adjustment lever available at nominal upcharge
> All arm pad options are still available
> Elbow blocks may be added
> Available left or right

DURABLE, PRECISION MACHINED REAR PIVOT FOR LONG TERM STABILITY AND TOLERANCE

> Single locking bolt or ratchet allows infinite adjustment of angle and rotation of armpad or arm trough
> Ability to capture complex positions of client’s arm/hand
> Universal 7/8” clamp which allows it to fit on any wheelchair armrest, be it, manual or power
> Low profile bracket easily interfaces with the Motion Concept’s gel armpad, Arm Trough or Multi-Position Flat Armpad

> Transfer arm available with power or manual drop down
> Power version operates through a separate switch or through the joystick control
> The manual version uses a small manual linkage located at the bottom of the armrest
> Client can slide/shuffle along seat pan onto armrest for easy transfer
> Weight capacity: up to 200 lbs
> Available left or right

> Available for the Motion Concept’s dual post tilt armrest or the recline armrest
> OutBack Arm pivots 30° outward to allow clearance for Arm Troughs, lateral supports and other positioning components
> Available left or right

> Sleek and modern automotive look
> Quad release and closure for clients with limited dexterity
> Made of sturdy, durable material
> Available on Motion Concepts dual post arms only
> No charge option with Ultra-Low systems

> Retractable cup holder fits most standard cans or bottles
> Arm pad flips open to store items
> Comfortable padded armrest
> Available for left or right side
> Size: 4” wide x 14” long

> Flip back and removable for easier transfers
