Thursday, March 24, 2022

8:00 am – 9:00 am EST

3:00 pm – 4:00 pm EST

Thursday, April 28, 2022

8:00 am – 9:00 am EST

3:00 pm – 4:00 pm EST

Thursday, May 19, 2022

8:00 am – 9:00 am EST

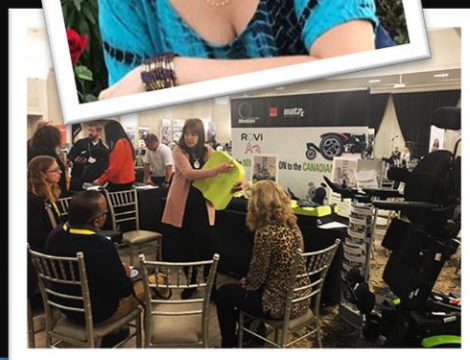

3:00 pm – 4:00 pm EST

Cleaning & Disinfection of Matrix Seating

In the healthcare world there are always concerns with prevention of infection transmission. This presentation will recommend methods to break the chain of infection transmission in relation to wheelchair seating. Participants will be provided with examples of engineering controls offered in Matrix® Seating products that may assist in infection control.

We will cover infection prevention and control terminology and recommendations as applicable to the wheelchair industry. The latest research related to survival of pathogens on wheelchair surfaces will be shared. The presentation will also review products in Matrix® Infection Control Line along with product-specific cleaning and disinfection recommendations.

Invacare Corporation is accredited by IACET as a provider of continuing education and training courses compliant with ANSI/IACET 2018-1 Standard for Continuing Education and Training. Upon completion of the Educational Session and Course Knowledge Assessment* a 0.1 Continuing Education Units (CEUs) will be awarded to individuals for attending 1 hour of instruction. (*80% achievement or greater on the Course Knowledge Assessment is required to receive CEU Certificate).

Presented by: Anna Sokol, RN, MN, BScN, BScKin is the Invacare® Matrix® Clinical Education Specialist for Canada. Anna is a Registered Nurse with Emergency, SCI Rehabilitation, Diabetes, and Pediatric Orthopedic experiences. As a front-line nurse, Anna worked during multiple respiratory outbreaks and provided triage and acute care at the hospital. In the community setting, she was accountable for the infection prevention and control and occupational safety of the rehabilitation clinicians, nurses and unregulated care providers. Based in Canada, Anna has a wealth of experience related to communicable diseases and use of personal protective equipment. During the current Covid-19 pandemic, she serves as a resource for seating and mobility partners and answers many questions related to customer and employee safety.
